ABOUT US

VehiCode, Inc is a startup company founded in United States since 2016 and backed by our own China-based factory having over one decade experience producing aftermarket auto lights, previously HID bulbs and now LED headlight bulbs. After two years’ consistent testing and developing, our latest product series - Silver series and GoldPro series - are published facing different requirements of our customer base at different affordable price range.

“Made in China, branding in USA” as our mission, we involve our responsibility in filtering highest performance LED auto lights from our China-based factory and strictly regulate each product’s quality and build fair factory direct price tier to outperform competition. On the other hand, we involve our passion in building solid supply chain and distribution channel in United States.

Since we specialize in auto lighting, we are always happy to spend that extra bit of time explaining the principals of auto lighting and helping our customers understand what separates our products from some of the others out there. We have always stressed that we can only be successful by delivering quality products at fair prices and respecting our customer base. We are committed to exceeding our customers’ expectation & staying on the cutting edge of lighting technology.

We offer many vehicle and product specific literature for dealers who specialize in certain types of vehicle products. Place these brochures on your counter for customers to take as a way to show your customers other great items that we offer which otherwise may have not been considered before.

- Brochures feature our most popular product lines.
- Great to place on your counter to draw customer’s attention
- Model specific to cater to your customer’s needs
- Great way to “up-sell” or add products onto a customer’s purchase
- The customer can leave with a “wish list” and come back to purchase more products.

VehiCode Silver-100 Series LED headlight bulbs are designed to outperform standard halogen bulbs, and match the brightness of HID bulbs. Each bulb emits 3,200 lumens rivaling the top of the line HID bulbs.

1. Aluminum Housing
2. Built-in fans
3. Built-in TSPS
4. Red Copper
5. ETI Flip Chips
6. Plug-N-Play
7. More focused beam pattern
8. High lumen output
9. Compact LED Drivers
10. Vibration resistant
11. Waterproof IP67
12. Extra longer life-span

CAPACITORS

ANTI-FLICKERS CANBUS READY

Capacitors are used to sort out flickering issues that are very common with LED kits. Light flickering issues arise as a result of LED bulb replacement. On many occasions the cars computer rejects the changed bulb especially when it happens to be a replica and not the original. A warning canceller or capacitor is highly recommended for this purpose. It works perfectly well with cars whose year of manufacture ranges between 2012 upwards.

1. Plug-N-Play, no modification is needed
2. Solve error message on dashboard
3. Eliminate LED headlight flickering
4. Work for all cars with computer controlled headlights

www.vehicode.com
**INSTALLATION GUIDE**

**STANDARD PARTS**

- 2x LED Headlight Bulbs
- 2x LED Ballasts

**OPTIONAL PARTS**

- 2x Capacitor Links

---

Some vehicle utilize a Pulse Width Modulator (PWM) that sends varying power through the factory wiring at a fast rate. The optional VehiCode Capacitors Links are designed for these systems. Using the VehiCode Ballast without these links on a PWM system will result in flickering lights and is not recommended for the longevity of the components.

---

**STEP 1**

Open your vehicle's hood. Open the back cap of the headlight assembly and take out the stock bulb.

**STEP 2**

Insert the LED bulb into the headlight assembly.

**STEP 3**

Fix VehiCode headlight bulbs into headlight assembly.

**STEP 4**

- Insert the head of bulb
- Turn the bulb adapter clockwise to lock into position
- Plug the LED bulb to power socket.
FAQs

LED HEADLIGHT BULBS

Q: Which model number should I choose for my car’s headlights?
A: 1. Log in vehicode.com/part-finder.html to find out your model number
   2. Refer to Vehicle owner’s manual to check out the matched bulb’s model number.
   3. Refer to model number on previous headlight bulbs.

Q: Is it compatible with my vehicle? What’s CanBus Ready?
A: If you installed the common bulbs in some cars like BMW ,AUDI ,Benz ,canbus light will report that some bulbs can not work . That is because of the power of common bulb do not reach the requirement . How to solve this problem? The answer is canbus light . For some luxury brand and newest car owners, you probably need to purchase extra CanBus Capacitors to resolve this issue.

Q: What’s the difference between different series?
A: SILVER SERIES: features affordable price and cost-effective.
   GOLDPRO SERIES: features upgraded materials and highest performance.
   100: features 2 sides of 2 chips for single beam
   150: features 2 sides of 4 chips for dual beam
   200: features 3 sides of 3 chips for single beam, 360° light emitting and CanBus Ready.

DEALERSHIP APPLICATION

Q: Why partner with VehiCode?
A: backed by our own China-based factory having over one decade experience producing aftermarket auto lights, we involve our responsibility in filtering highest performance LED auto lights from our factory and strictly regulate each product’s quality and build fair factory direct price tier to outperform competition.

Q: How to become VehiCode dealer?
A: 1. Download, fill out and fax or email us back your dealer application form and resale certificate via www.vehicode.com/dealer
   2. After being approved, your account will be activated and then you’ll be available for dealer Accumulative Tiered Pricing.

Q: What’s VehiCode Dealership?
A: We highly understand dealers’ worry of investing huge amount of capital in purchasing new inventory and not sure whether they can be well consumed or not. To resolve this issue, we adopt “drop shipping” method.

In regards to “Drop Shipping”, dealers can place our free designed brochures in physical stores or upload our products in your own online shop. After orders being placed by your customers, dealers go forward to our website, place related orders and indicate the (multiple) receiving address. Afterwards, we arrange all the rest work. There is no cost completely. The discount will be applied in your shopping cart and your periodic sales revenue will be accumulated automatically in your account.

Q: What’s dealer Accumulative Tiered Pricing?
A: To ensure that higher monthly sales revenue is rewarded, VehiCode automatically discounts your order amount as you place more orders throughout the month. When a higher sales revenue is reached, the discount automatically moves to the next tier. These discounts are achieved at specific tiers, reflected in the table below:

<table>
<thead>
<tr>
<th>Sales Revenue Per Month</th>
<th>Below $1000</th>
<th>$1,000–$5,000</th>
<th>$5,000–$25,000</th>
<th>$25,000–$50,000</th>
<th>$50,000–$100,000</th>
<th>Above $100,000</th>
</tr>
</thead>
<tbody>
<tr>
<td>Discount Rate</td>
<td>25%</td>
<td>35%</td>
<td>40%</td>
<td>45%</td>
<td>50%</td>
<td>Contact us</td>
</tr>
</tbody>
</table>

For example, let’s take a hypothetical $10,000 monthly sales revenue based on MSRP, your profit = ($1,000–$0)×25%+($5,000–$1,000)×35%+($10,000–$5,000)×40% = $3,650
